To Mr. []

I suggest that you talk to Mr. Bannerman about the PATB situation with these papers in hand. I'm not clear whether the [] 6 June memorandum is [] only speaking or represents the group that [] headed. If it is not the latter, we should get the group view for Mr. Bannerman PDQ.

I also found myself uncertain in reading the lead phrase of [] paragraph 3. It seems to me we must know rather than believe what will serve the customer interests.
